MESSAGE

FROM CCE EXECUTIVE DIRECTOR

A Letter from the Executive Director:

On behalf of the Cornell Cooperative Extension (CCE) of Franklin County staff, members of the Board of Directors, and the program advisors, please accept our 2024 Annual Report and Financial Overview.

By all measures, 2024 was the most successful year in the history of CCE Franklin County. With a record number of events, programs, and grant funds received, we reached an unprecedented number of the county youth, seniors, farmers, small businesses, and municipalities. In 2024, staff at CCE continued to grow with the addition of two new After-School Program Directors and a Dairy in the Classroom Educator. Additionally, we were honored to receive numerous small and large grants to help fund our array of programs. Our programs continue to create positive changes in the lives of Franklin County citizens by offering informal education and learning activities to county residents in rural towns, centers and villages.

We thank you for your support!

Scott Gordon

CCE Executive Director

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities.

DAIRY IN THE CLASSROOM

Dairy in the Classroom brings high quality, hands-on, and tasty dairy lessons to students directly in their classrooms! Lessons are formulated based on classroom grade level and needs. Students learn about why milk is healthy and identify the multitude of dairy products available. Students have the opportunity to taste (and make) these products to help expand their knowledge. Students also learn about the lifecycle of cows, what they eat and need at each stage, how to milk a cow and how milk moves from the cow to the carton.

ACCOMPLISHMENTS

In April of 2024, Amy Shipman was hired in the new position of Dairy in the Classroom Educator. During the last several months, we've seen some great accomplishments!

- Franklin County Ice Cream Trail
- Salmon River Middle School Summer School programming
- Chateaugay Rec Park Summer programming (May-August)
- Hosted a teacher professional development day in partnership with NYAITC and PAPAS dairy (August)
- Year-round teaching in school classrooms
- "Ice cream in a bag" with Malone elementary schools: Davis, St. Joes, and Flanders
- Salmon River Central Fall Fest
- "Adopt a Calf" through Discover Dairy with Salmon River 2nd grade.

"Students walked away with knowledge of cooking and why dairy products are beneficial in one's diet"

DAIRY IN THE CLASSROOM

MAC & CHEESE CHALLENGE

Local students participated in NYAITC mac and cheese challenge with classes at Franklin Academy competing. Each class made their own mac and cheese recipe and created a slogan and advertisement.

Focus on grades 10-11

- Brushton-Moria CSD
- Malone CSD
- Salmon River CSD
- Saranac Lake CSD
- St. Regis Falls CSD

POPULAR LESSONS

Popular lessons and fun, hands-on activities included:

- Food Insecurity
- Intro to Agriculture
- Ice cream making
- Cheese taste testing!

(Left) Summer intern, Cara Walker assists with ice cream trail and summer programming.

THE FUTURE

In the coming year Dairy in the Classroom will expand to grades 6-12 in all school districts in Franklin County.

FARM TO SCHOOL

In 2024, the Franklin County Farm to School program made significant strides in connecting local agriculture with school communities. CCE Franklins' Farm to School Program Coordinator, Katie Remmers, focused on three key areas: increasing the inclusion of New York State (NYS) products in the school meal programs; enhancing agriculture education for students; and fostering a connection between local farmers and the school districts.

A SUCCESSFUL YEAR

Katie worked closely with three school districts—Brushton-Moira, St. Regis Falls, and Salmon River. Within all schools, we saw an average 8.5% increase in the volume of New York State products incorporated in their school lunch programs. Katie worked with food service directors and cafeteria staff at each district to identify, procure, track, and serve local products. All districts have been working towards the NYS 30% Initiative, where at least 30% of the food procured for the school lunch program is NYS product (at least 51% raw NYS material).

During the 23-24 school year, Brushton-Moira proudly reached the 30% Initiative, a huge milestone for the district. To learn more about the 30% Initiative, please visit the New York Agriculture and Markets - 30% New York State Initiative page: (<https://agriculture.ny.gov/30-percent-initiative>)

Six local producers were onboarded to the program this year, supplying products like blueberries, beef, pork products, mixed greens, maple syrup, and potatoes. These partnerships not only enriched school meals but also strengthened the local food economy. Thus, new opportunities for Franklin County farmers were created to fortify the region's food system. As the program continues to grow, CCE looks forward to connecting more local and regional partners to north country school districts.

Schools Served:

- Brushton-Moira CSD
- St. Regis Falls CSD
- Salmon River CSD
- Tupper Lake CSD

TASTE TESTS A HIT!

Katie hosted over 36 taste tests across the districts. The taste tests aligned with a Harvest of the Month calendar that introduced students to seasonal, locally sourced foods. Students sampled apple pie bites, hand-cut French fries, beet brownies, roasted butternut squash, and more. These taste tests inspired excitement and curiosity about healthy eating, with students often delighted to try new fruits and vegetables.

FARM TO SCHOOL

THE IMPACT

The Franklin County Farm to School program has created lasting benefits for both students and farmers. Students enjoy healthier meals, develop lifelong healthy eating habits, and gain exposure to agricultural concepts. Farmers benefit from expanded, stable markets that drive economic growth and encourage investments in year-round production.

In 2024 alone, the program facilitated an \$82,000 increase in NYS farm product purchases, highlighting its significant impact on the regional food system.

“ One of the most rewarding aspects of the program is the enthusiasm of students during taste tests—especially their excitement over trying squash and beets!

School Employee ”

THE FUTURE

With great excitement, Franklin County CCE received additional funding in 2024 to continue the growth of the Farm to School Program. Tupper Lake Central School District will join the existing three districts, expanding the program's reach across the county.

Goals for the next phase include:

- Further increasing NYS product procurement and from scratch cooking
- Deepening agricultural literacy through standards-based lessons, hands-on activities, and school garden projects.
- Enhancing cafeteria operations with additional training and equipment

The overarching goals remain clear: to foster enduring relationships between schools and local producers, ensuring a sustainable and meaningful impact on education, agriculture, and community health in Franklin County.

HORTICULTURE

Cornell Cooperative Extension of Franklin County is the resource for information on soils, site improvement, plant selection, proper plant care, eco-friendly practices, integrated pest management, composting and so much more!

TUPPER LAKE COMMUNITY GARDEN

In collaboration with the Tupper Lake Library and Tupper Lake 4H group – The Winged Eagles, our educator met with the 4H group at the library multiple times in the spring to plan out the garden and start seeds. The garden was planted in June and The Winged Eagles, among other community members, helped maintain the garden through the summer. The project will continue in 2025 with the addition of the Tupper Lake School Green Team.

“I thoroughly enjoyed gardening and seeing how I was able to provide for myself and my kids and my animals”

Seed to Supper participant

SEED TO SUPPER PROGRAM

The Seed to Supper program teaches new gardeners how to grow their own food on a budget. Gardeners learn how to prepare their own garden space, start plants from seeds, and take care of their growing garden. Classes are free and gardeners are supplied with a gardening manual, seed starting supplies, and garden tools to use in their own garden at home.

“It helped encourage me to keep growing, helped me be more involved in the community, and learned new skills!”

- Class Participant

HORTICULTURE

JCEO GREENHOUSE YIELD

1,330 Total Pounds of Produce!

- Tomatoes – 820 lbs
- Cucumbers - 125 lbs
- Squash – 78 lbs
- Peppers – 75 lbs
- Roots – 50 lbs
- Greens – 25 lbs

AGRICULTURE EVENTS

October 2023-

CCE, Franklin Ag Team, held a Beef Quality Assurance Training with Chuteside Instruction for beef producers.

Franklin County Animal Response Team (CART) held a Livestock Handling & Safety Training.

December 2023-

CCE, Franklin Ag Team hosted a Farm Business 101 Workshop.

March 2024-

CCE, Franklin Ag Team hosted a Grants How-To Workshop.

CCE, Franklin participated in the Brushton Moira Central Career Fair. I brought in several of my animals for interaction and learning with the students.

April 2024-

CCE, Franklin Ag Team in collaboration with FC Farm Bureau hosted a FARMEDIC Training for First Responders at CARSADA Dairy in Malone, NY.

May 2024-

CCE, Franklin Ag Team, hosted a Farmers Market Workshop to better prepare producers to sell at the markets.

Freshman Career & Financial Management Program Panel at Chateaugay Central School.

Farm Tour for Chateaugay Central School students at Poppydale Dairy Farm with sheep & goats.

June 2024-

CCE In the Community, I brought in some baby goats to the Chateaugay School for the students in the after-school program to learn about goats.

Progressive Ag Safety Day held at Brushton Moira Central School. I brought in several animals to the event where students learned about how to be safe while visiting a farm and interacting with livestock.

CCE, Franklin Ag Team hosted a field walk at a local grower's farm for other county producers to learn and share production methods.

August 2024-

Franklin County Fair.

September 2024-

CCE, Franklin Ag Team participated in the JCEO Ag & Artisan Fall Festival.

St. Lawrence Valley Produce Auction Fall Grower Meeting.

Composting Tour at The Cook Farm.

AGRICULTURE

CCE Franklin Ag Team, held a Beef Quality Assurance Training with Chuteside Instruction for beef producers.

CCE Franklin Ag Team and Animal Response Team (CART) held a Livestock Handling & Safety Training.

CCE Franklin participated in the Brushton-Moira Central Career Fair.

CCE Franklin Ag Team hosted numerous community events

CCE Franklin Ag Team in collaboration with FC Farm Bureau hosted a FARMEDIC Training for First Responders at CARSADA Dairy in Malone, NY.

4-H AFTER SCHOOL

4-H After school programs foster a unique combination of fun and learning that helps youth develop lifelong skills, such as leadership, critical thinking, and teamwork. The programs address a growing need for quality after-school programming in the U.S., where as many as 15 million children go home to empty houses after school. Research shows that youth that are at a high risk can greatly benefit from 4-H programming and after school enrichment.

SAFE & ENRICHING

The 2023-2024 school year wrapped up with success at both Panther Hour (Brushton-Moira Central School) and Bulldog Hour (Chateaugay Central School).

Each program provided after-school childcare to students ages 5-12. The programs provided a safe, enriching space for children based on the 4-H Positive Youth Development Model.

After-School Programs had a year-end total attendance of 4805. The programs had a total average daily attendance of 29 students.

NEW OPPORTUNITIES & FUNDING

In June 2024, CCE Franklin was awarded the 2024 NYS LEAPS grant. The New York State Learning and Enrichment After-School Program Supports (LEAPS) through the Office of Children and Family Services (OCFS) provides \$220,000 in funding to each program for the next five years (\$2.2 million in total funding).

The 2024-2025 school year brought exciting new changes to CCE Franklin After-School Programs. A new software management system, *ezchildtrack*, was implemented to better assist with business practices and child tracking information.

The existing new grant allowed for the hiring of a Program Director in each school, lower program registration fees, increased program supplies, and enrichment activities including guest speakers and field trips.

4-H AFTER SCHOOL

REBRANDING

For the 2024-2025 school year, Bulldog/ Panther Hour was rebranded to “Cornell Cooperative Extension Enrichment Experience” and launched. Both programs have seen a significant increase in attendance since the beginning of the 2024-2025 year with total average daily attendance of 67 students.

4-H After-School Enrichment Experience

- Positive Youth Development
- 4-H Curriculum
- Learning Resource Stations
- Social-Emotional Development
- Active and Engaged Learning Activities
- Guest Speaker
- Community Engagement
- Field Trips
- Daily Tutoring
- Family Engagement Opportunities

THE FUTURE

The new funding allows for care to be provided on school closure days (superintendent and ½ days, and vacation days) as well as a 6-week summer day camp at each school district.

4-H CLUBS

4-H is a leader in the research and practice of positive youth development and the largest youth organization in the world. 4-H empowers youth to reach their full potential by working with and learning skills from trained, caring adult mentors and educators. The phrase “Learn by Doing” is the educational philosophy of the 4-H program. Franklin County 4-H currently has 14 established clubs.

4-H TAKES YOU PLACES

- County, District and State Public Speaking Events
- 3-Day Horse, Dairy, Beef, Sheep and Goat Camps
- Leadership Opportunities that are regional and statewide
- Career Ex at Cornell University
- Teen Retreats
- Job Readiness opportunities
- Resumes & Job Interviews
- “Be the E” Teen Entrepreneurs
- Franklin County Fair showcasing all programs
- Life Skills, Club Community Service Involvement
- Food Preparation and Nutrition
- CPR & First Aid
- School Enrichment: Embryology, Ag Literacy, Environmental Science,
- 4-H “Takes You Places” - Explore American History and Science.

Life saving skills with an EMT.

4-H CAMP OVERLOOK

4-H Camp Overlook is a traditional, six-day, five-night residential camp located on Indian and Mountain View Lakes in the beautiful Adirondack Mountains. The camp, owned and operated by Cornell Cooperative Extension of Franklin and St. Lawrence Counties since 1945, is open to youth ages 6-17. 4-H Camp Overlook also offers Cloverbud and Cloverleaf programs for new campers between the ages of 6 and 11. Year-round, Camp Overlook also offers team building, leadership training and ropes course facilitation for group field trips and overnights. facilities.

PROGRAM HIGHLIGHT

MAAP BACKPACKING PROGRAM (MOUNTAINEERS, ALPINE ADVENTURERS AND PATHFINDERS)

The MAAP program at 4-H Camp Overlook is a progressive experience geared towards introducing campers to safe and enjoyable backpacking in the Adirondacks. Divided into 3 age-appropriate levels, campers begin their learning on-site as **Pathfinders** with interactive lessons about planning, packing, leave no trace principles, maps & navigation and outdoor cooking with practice hikes and an overnight campout at camp.

The next step on the journey is for **Alpine Adventurers** to stretch their legs during a three-day, two-night Adirondack trip where they plan their journey during their first days at camp and then head out on the trail for three to six miles per day. Campers focus on managing their pack, pace, and supporting each other.

The final step in the MAAP program experience is left to the **Mountaineers** who brave the Adirondacks high peaks for a full five days and four nights before they head back to camp to celebrate their success with a hot shower and a journey down the zipline.

In 2024, 88 campers participated in a MAAP program including 69 Pathfinders, 10 Alpine Adventurers and 9 Mountaineers. Program equipment, including backpacking packs, tents, lightweight cook kits, and water purification filters, is a key future need for this program to enable its continuance and growth.

88 Campers
participated in the MAAP
program in 2024

YEAR-ROUND FUN

Camp is for everyone- all year round! With our multi-purpose, winterized Great Hall, you and your group can take advantage of all that camp has offer, whether it's ninety degrees or twenty below!

Rental options include:

- year-round meeting room location for your group of 10-200
- use of our commercial kitchen and dining hall
- seasonal outdoor picnic location or campfire gathering area
- facilitated teambuilding challenges for all ages
- school field trips including free play, archery, low ropes challenges & nature discovery
- expert lead high ropes adventure and/or ziplining
- overnight cabin camping seasonally (accommodating approximately 150)
- overnight heated cabin options (for around 20)

EXAMPLES OF PROGRAMS OFFERED

- Ag Workshop - Sheep producers feeding and health
- Tupper Lake Winged Eagles 4-H Robotics Workshop
- 4-H Junk Drawer Robotics at VIC
- Winter 4-H Sewing Project
- 4-H WOW-Boston Bound Planning Meeting
- Eat Healthy and Be Active Workshops
- Ag Safety Awareness Workshops
- 4-H Bluebird House Make-n-Take
- Hay and Pasture School
- Ag Literacy Week
- Ag Fruit Tree and Raspberry Pruning Workshop
- Career Day Workshop – Brushton Moira Central
- Beekeeping Workshop
- Small Ruminant Workshop and Camp
- Multiple 4-H Club Meetings across County
- 4-H Riding Evaluations
- Manure Pit Rescue Safety Training
- Area 4-H Public Speaking Workshops
- Healthy Pasta from Vegetables Workshop
- District 4-H Public Speaking Presentations
- Soap Making Workshop
- Camp Overlook Cleanup
- 4-H Shooting Sports State Training
- 4-H Sewing Camp
- Dairy Day for Schools
- Conservation Field Days for Malone first graders
- 4-H Horse Camp
- 4-H Miniature Horse Clinic

2024 GRANT FUNDING

- 2024 Farm-to-School Grant with Brushton-Moira Central, St. Regis Falls, Salmon River – funded for \$100,000.
- 2025 Farm-to-School Continuation/Expansion Grant funded for \$100,000
- 2024 Dairy in the Classroom Grant - \$26,000
- 2025 Dairy in the Classroom Continuation/Expansion - \$26,000
- Alcoa Grant for WOW Trip – Funded for \$20,000
- Association of Science and Technology Centers (ASTC) partnership with the WILD Center – Use of Telemetry for bird migration and avian flu effects – planning grant funded for \$8,000.
- Stewarts 4-H Grant – Funded for \$1,446.
- United Way Camp Overlook Scholarships Grant – Funded for \$3,500.
- NYS Agriculture and Horse Breeders Development Grant – Funded for \$1,000.
- Seed to Supper Grant – Funded for \$2,000
- Dairy in the Classroom Grant – Funded for \$26,000
- OCFS – Childcare Stabilization - >\$28,000
- LEAPS (After-School) - \$220,000/yr per school for up to 5 years (\$2.2M)

2024 ECONONOMIC IMPACT

WHY IS CORNELL COOPERATIVE EXTENSION A COST EFFICIENT ORGANIZATION?

- Our program educators and team leaders work directly with over 12,000 residents each year (adults and youth).
- All of our programs are free or low cost.
- Through workshops, fairs, news outlets, media and publications (print and electronic), CCE educates over 350,000 people that live, work, and spend their money in Franklin County.
- Our employee benefits are paid by Cornell University totaling over \$308,000.
- Cornell provides many services including payroll and personnel administration, web-based staff development, and other program support.
- Cornell's educational programs are NY State certified and are not duplicated by other agencies.
- We partner with local agencies to provide programs, examples include NYS Office of the Aging, United Way of the Adirondacks, Paul Smith's VIC, and Malone YMCA.
- Extension's curriculum is Cornell University and other Land Grant University research based.
